## 1. Qualitative Information on Quarterly Consolidated Financial Performance

### (1) Explanation of Results of Operations

During the first nine months of the fiscal year ending September 30, 2018 (hereinafter, “the period under review”), the Japanese economy continued a moderate recovery trend led by continued recoveries in corporate earnings and capital investments against a backdrop of economic and monetary policies by the government, along with some signs of a turnaround in consumer spending reflecting improvements in employment and income environments.

Regarding the situation surrounding a child-rearing support business in the environment above, both the central and local governments are implementing measures to secure childcare workers and develop nursery schools to expand childcare service capacity. The goal is to address greater demand for childcare services in the face of the increasing employment rate of female workers. Further, the government released the Relief Plan for Child Rearing in June 2017 with the aim of eliminating wait-listed children by creating capacity for a total of 320,000 children with 220,000 children by the end of fiscal 2020 and another 100,000 by the end of fiscal 2022. Thus, we expect that the number of nursery facilities will continue to expand.

Given the concern over Japan’s declining workforce due to its aging population and a decrease in its total population, the development of a sound child-rearing environment is urgent in the course of promoting the women’s social advancement to boost the economic vitality of our country. In this context, the child-rearing support service providers are playing an increasingly important social role.

Under such circumstances, Global Group Corp. (hereinafter, “the Company”) and its consolidated subsidiaries (hereinafter collectively, “the Group”) opened 17 new nursery schools as listed below during the third quarter as a result of our continued efforts to develop nursery facilities in Tokyo, Kanagawa, Saitama, and Osaka. The Group also acquired six Mebae Hoiku Room facilities due to the transfer agreement of the employer-sponsored nurseries business with Partner Agent, Inc.

Consequently, at the end of the period under review, the Group operates a total of 141 facilities: 69 central government licensed nursery schools in Tokyo, 20 in Kanagawa, three in Chiba, one in Saitama and four in Osaka; 25 local government licensed nursery schools or centers for early childhood education and care; seven employer-sponsored nurseries; and 12 after-school day care centers or children’s houses.

 Mebae Hoiku Room Roka-Koen  
 Mebae Hoiku Room Chitose-Funabashi  
 Mebae Hoiku Room Yoga  
 Mebae Hoiku Room Kasuga

Meanwhile, as a result of our preparation for opening new facilities during the third quarter, we newly opened the following government licensed nursery school on August 1, 2018.

A nursery school:

Tokyo

Global Kids Minamisuna

The Group recognizes subsidy income as non-operating income when it receives municipal subsidies to cover part of capital expenditures (mainly for interior construction costs) to open new facilities. As opening of the Group's new nurseries concentrates in April and thus the recognition of subsidy income tends to be heavily skewed in the third quarter (from April 1 to June 30). For this reason, the Group reported a large amount of subsidy income for this quarter as a result of opening new nursery schools.

Consequently, the Group reported net sales for the period under review of 12,631 million yen (up 32.7% year-on-year) with operating profit of 392 million yen (up 28.8% year-on-year), ordinary profit of 1,658 million yen (up 25.0% year-on-year), and profit attributable to owners of parent of 879 million yen (up 23.3% year-on-year).

## **(2) Explanation of Financial Position**

Assets

Total assets amounted to 17,597 million yen at the end of the third quarter, an increase of 3,644 million yen over the end of the previous fiscal year.

Current assets increased 1,474 million yen to 4,120 million yen. This was mainly attributable to an increase of 959 million yen in cash and deposits as a result of receiving subsidies on capital expenditures to open new facilities in April, and also an increase of 303 million yen in accounts receivable-other.

Non-current assets increased 2,170 million yen to 13,477 million yen. This was mainly attributable to an increase of 1,390 million yen in buildings and structures as a result of opening new nursery schools, and also an increase of 608 million yen in construction in progress to prepare for opening of new nursery schools in August 2018 and the next fiscal year.

Liabilities

Total liabilities amounted to 10,705 million yen at the end of the third quarter, an increase of 2,677 million yen over the end of the previous fiscal year.

Current liabilities increased 1,336 million yen to 3,809 million yen. This was mainly attributable to an increase of 753 million yen in accounts payable-other, and also an increase of 240 million yen in provision for bonuses due to the difference of the period for which the provision is recognized.

Non-current liabilities increased 1,341 million yen to 6,896 million yen. This was mainly attributable to an increase of 932 million yen in long-term loans payable.

Net assets

Net assets increased 967 million yen to 6,891 million yen at the end of the third quarter. This was mainly due to an increase of 879 million yen in retained earnings as a result of the booking of profit attributable to owners of parent.
