## 1. Qualitative Information on Quarterly Consolidated Financial Performance

### (1) Explanation of Results of Operations

For the first nine months of the fiscal year ending June 30, 2019 (hereinafter “the period under review”), the Urbanet Group companies (hereinafter “the Urbanet Group” or “the Group”) reported net sales of 18,125 million yen (up 36.2% year-on-year) with operating profit of 2,296 million yen (up 35.4% year-on-year), ordinary profit of 2,115 million yen (up 37.8% year-on-year), and profit attributable to owners of parent of 1,465 million yen (up 39.8% year-on-year).

The performance by each business category is explained below.

It is noted that all activities of the Group belong to a single business segment—the real estate business—consisting primarily of the development, purchase, and sale of condominiums for investors and consumers. As such, we break down the operating results into the following categories within the real estate business segment.

#### (Real Estate Development and Sales)

Total amount of sales from this category was 17,614 million yen (up 37.4% year-on-year), with revenues from sale of 609 units in a total of 13 one-room apartments for investors, sale of three units in one terraced house, and resale of two tracts of land.

#### (Real Estate Purchase and Sales)

Total amount of sales from this category was 181 million yen (up 6.2% year-on-year), with revenues from purchase and resale of five units of properties.

#### (Others)

Total amount of sales from this category was 328 million yen (up 3.0% year-on-year), with revenues from real estate brokerage and real estate leasing among others.

### (2) Explanation of Financial Condition

#### 1) Analysis of Financial Position

Total assets on a consolidated basis amounted to 29,451 million yen at the end of the period under review, an increase of 924 million yen over the end of the previous fiscal year.

This was mainly due to an increase of 1,527 million yen in cash and deposits and a decrease of 1,666 million yen in real estate for sale thanks to strong sales of the Real Estate Development and Sales business, and an increase in real estate for sale in process of 948 million yen resulting from smooth purchase of land for development.

Liabilities totaled 20,932 million yen, a decrease of 144 million yen over the end of the previous fiscal year.

This was mainly due to an increase of 1,455 million yen in current liabilities caused by an increase in income taxes payable and a decrease of 1,600 million yen in non-current liabilities caused primarily by repayment of long-term loans payable using cash generated from sales of the Real Estate Development and Sales business.

Net assets totaled 8,519 million yen, an increase of 1,068 million yen over the end of the previous fiscal year.

This was mainly due to an increase of 1,023 million yen in retained earnings brought forward.

## 2) Analysis of Cash Flows

Cash and cash equivalents (hereinafter “net cash”) at the end of the period under review amounted to 5,749 million yen, an increase of 1,527 million yen over the end of the previous fiscal year. This was due to an increase in net cash provided by operating activities, which was partially offset by a decrease in net cash resulting from investing and financing activities.

The cash flow components during the period under review and the main reasons for changes are as described below.

### Cash flows from operating activities

Net cash provided by operating activities totaled 2,153 million yen (compared with net cash used of 586 million yen for the same period of the previous fiscal year).

This was mainly due to the booking of profit before income taxes.

### Cash flows from investing activities

Net cash used in investing activities totaled 67 million yen (compared with net cash used of 804 million yen for the same period of the previous fiscal year).

This was mainly due to purchase of property, plant and equipment (accounted for as the hotel construction cost).

### Cash flows from financing activities

Net cash used in financing activities totaled 558 million yen (compared with net cash provided of 1,063 million yen for the same period of the previous fiscal year).

This was mainly due to the payment of dividends to our shareholders and a redemption of bonds, in addition to repayments of long-term loans payable using cash generated from sale of properties, which exceeded proceeds from long-term loans payable made to purchase land for development, in the Real Estate Development and Sales business.

## **(3) Explanation of Consolidated Earnings Forecast and Other Forward-looking Statements**

We maintain the consolidated earnings forecast for the fiscal year ending June 30, 2019 that was announced on December 13, 2018 in “Notice of Revision to the Consolidated Full-year Earnings Forecast.” While operating profit, ordinary profit, and profit attributable to owners of parent for the period under review have already exceeded the profits of the full-year forecast, we expect fixed operating expenses will exceed gross profit in the fourth quarter (from April 1 to June 30, 2019).

#### **(4) Notes to Quarterly Consolidated Financial Statements**

##### **Going Concern Assumption**

Not applicable.

##### **Additional Information**

###### **Application of Partial Amendments to Accounting Standard for Tax Effect Accounting**

Starting with the beginning of the first quarter of the fiscal year ending June 30, 2019, the Urbanet Group is applying “Partial Amendments to Accounting Standard for Tax Effect Accounting” (Accounting Standards Board of Japan (ASBJ) Statement No. 28, February 16, 2018). Accordingly, the figure of deferred tax assets has been presented in the investments and other assets section of the balance sheet.

##### **Segment and Other Information**

Segment information

Omitted since the Urbanet Group has only a single business segment, the real estate business, which is engaged mainly in the development, purchase and sale of condominiums for investors and consumers.

*This financial report is solely a translation of “Kessan Tanshin” (in Japanese, including attachments), which has been prepared in accordance with accounting principles and practices generally accepted in Japan, for the convenience of readers who prefer an English translation.*
